

HARD WORKING & DURABLE

Formica® Compact consists of melamine-impregnated decorative surface paper combined with phenolic treated kraft paper; consolidated in various thicknesses and pressed at high heat and pressure.

FEATURES & BENEFITS

- * Structural (no substrate required)
- * Can be drilled, routed, tapped, sanded and shaped
- * High strength, impact, water and humidity resistance
- * Suited for interior horizontal or vertical surfaces
- * Two-sided decorative face

COMMON APPLICATIONS

Elevator cabs | Signage | Room dividers
 Wall panels | Commercial furniture
 Laboratory counters | Lockers Cabinets
 Wet walls | Counters | Tabletops
 Restroom partitions | Utility compartments
