

Everform®

SOLID SURFACE by FORMICA GROUP

DURABLE & NON-POROUS

Everform Solid Surface is a durable, non-porous product, made of acrylic. The product itself can be shaped into virtually any design, offering a palette of modern colors for every mood. Color and design go all the way through to allow endless design options, including edgings, accents and inlays. Our fresh designs can be easily paired with Formica® Laminate colors for mixing and matching materials in project. The design possibilities are endless.
