Urban Style

Storm Concrete and Mineral Concrete bring the sleek sophistication of concrete indoors with a smooth, contemporary finish.

Their muted gray tones create a versatile backdrop for warm accents like rust red, cream, and natural wood, evoking harmony and a connection to nature. Ideal for lobbies, airport transit spaces, and retail backdrops.

Timeless Beauty

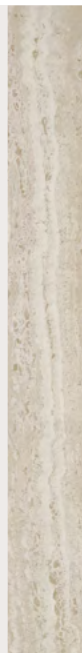

Tivoli Travertine and Bianco Travertine bring natural sophistication indoors with their soft, neutral tones and subtle textures.

These elegant surfaces create a warm, inviting backdrop that pairs beautifully with earthy hues, wood accents, and organic elements. Perfect for boutique hotel lobbies, offices, and commercial interiors.

Bold Luxury

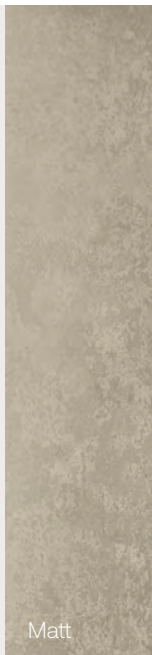

Pearl Stone and Lava Stone bring a sense of bold sophistication indoors with their rich, textured appearance.

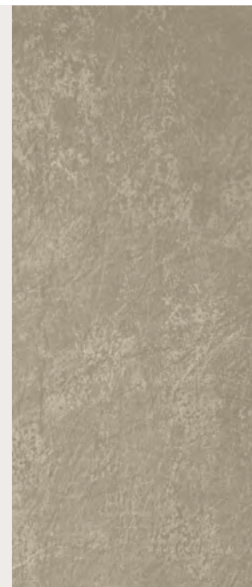

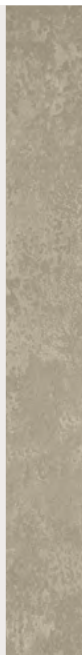

These deep, dramatic tones create a luxurious backdrop that pairs effortlessly with rustic woods, soft neutrals, and organic accents, adding depth and character to any space. Ideal for high-traffic areas, high-end retail environments, and public halls.

Sustainability at the core

Sustainability drives us forward. Our bio-based products put wood at the heart, creating solutions with a low carbon footprint for generations to come.

Nature meets innovation

Trespa® TopLab® Vertical panels are manufactured with a minimum of 58% biobased content which captures and stores carbon, actively contributing to CO₂ reduction.
